

Electrochemical Sensor Sheet

Now in Development

» SUMMARY

Three-electrode sheet type electrochemical sensor.
 Disposable type that can be used once. Maintenance
 of the electrodes is not required.

» FEATURES

- 1 A variety of pastes are available, including carbon electrodes, silver electrodes and silver-silver chloride electrodes.
- 2 Carbon electrodes and shapes can be customized according to the intended use.
- 3 Providing not only 3-electrodes type, but also variety types of electrode as customerized.

» PRODUCT APPLICATIONS

- Medical diagnosis
- Healthcare
- Water quality testing
